CHRISTOPHER TREDWIN

Chris was born and educated in the Southwest and then entered the Royal London Hospital Dental School in 1990. Following his preclinical years he was invited to undertake an intercalated BSc in Physiology with Basic Medical Science, and selected to obtain a Medical Research Council Grant to support this period of study. He completed this BSc in 1993 obtaining a First Class Honours Degree and then went on to complete his BDS in 1996 qualifying with Distinction in Restorative Dentistry.

After graduation he spent 5 years working in General Dental Practice initially as Vocational Trainee, Associate Dental Practitioner and then Principal Dental Practitioner. In January 2000 he undertook the Certificate Course in Restorative Dentistry at the UCL Eastman Dental Institute, and then progressed to undertake the MSc in Conservative Dentistry, qualifying in September 2002 with Distinction, and being awarded the 3M prize in Conservative Dentistry for clinical and academic excellence. He was appointed full-time Clinical Lecturer in Fixed and Removable Prosthodontics at the UCL Eastman Dental Institute in October 2002, Programme Coordinator for the internationally renowned MSc in Conservative Dentistry in 2003 and Programme Director in 2007. He completed Specialist Training in Restorative Dentistry in December 2007 at The UCLH Eastman Dental Hospital and completed a PhD in 2009 at UCL entitled “Sol-Gel Derived Hydroxyapatite, Fluorhydroxyapatite and Fluorapatite Coatings for Titanium Implants and Bone Grafts”. He was then promoted to Senior Lecturer in Prosthodontics / Honorary Consultant in Restorative Dentistry in 2009.

In 2010 he was offered the opportunity to take up the position of a Chair at Plymouth University and appointed to the position of Professor of Restorative Dentistry and Director of Clinical Dentistry. Chris took over as Head of Plymouth University Peninsula Dental School in July 2012 and is in charge of training over 300 Dental Students.

To date he has published 41 papers and supervised 47 Masters projects. He is part of an active research group at Plymouth developing novel bone grafting materials for use around dental implants and currently has 5 PhD students. He also lead’s a Master’s programme in Restorative Dentistry at the school.

Chris is a registered specialist with the General Dental Council in Endodontics, Periodontics, Prosthodontics and Restorative Dentistry and welcomes private referrals to Yealmpton Dental Practice.
